

Edible Fire Trucks

*Adapted from Enchanted Learning for the Texas Department of
Agriculture Food Ban Guidelines*

You will need:

- 1 1/2 graham crackers per fire truck
- tiny Oreos for wheels
- stick pretzels
- 1 can of vanilla frosting
- red food coloring
- 1 jar of cherries

Mix a few drops of food coloring into a can of vanilla frosting. Place 1 whole graham cracker onto a paper plate. Put a spoonful of frosting on the graham cracker. Let your students spread the frosting on the graham cracker. Put half a graham cracker on top of the frosting. This is the cab of the truck. Using a small amount of red frosting, "glue" the cherry on top of the cab. This is the fire truck's red light. Using more frosting, "glue" on four tiny Oreos to the sides of the graham crackers. These are the wheels. On the back of the truck, "glue" two pretzels parallel to each other. Then, "glue" in broken pieces to make the ladder.
